Science, Questions, and Covid

My favorite questions and comments from social media in 2021.

Dr. Eli David “Everyone will get Covid at some point, right now we have the mildest variant, we have vaccines, we have effective treatments—There is no reason not to go back to the old normal, right now. The pandemic has ended. Covid is now endemic.”

“Covid is a deadly pandemic. It killed science, logic, evidence based medicine, and common sense.”

Jenna Ellis Esq “When have we ever tracked and counted the number of people testing positive for colds in winter, and tried to justify shutdowns and mandates because roughly 0.03% may get complications?”

“The point of free speech is to discuss controversial facts, ideas, theories, and opinions. We don’t need free speech protections for non-controversial topics.”

“Top 5 Omicron Symptoms: Runny Nose, Headache, Fatigue, Sneezing, Sore Throat—in other words, a cold.”

Errol Webber “If I had 4 small pox shots in one year, and still got small pox...I’d have some questions.”

Lauren Boebert “It’s not the governments job to save my life. It’s their job to stay out of it.”

Jillian Anderson “It’s not the governments job to protect my health, it’s MY job to protect my health. It’s the government’s job to protect my constitutional rights.”

Candace Owens “I love how we’ve committed to referring to the many cases of Covid in vaccinated individuals as “breakthrough infections” as opposed to questioning the efficacy of the vaccines.”

Dec 17, 2021 “CDC Advisers will weigh limits on the Johnson and Johnson vaccine following “new data” on “rare blood clot issues.” And yet we can’t question NEW vaccines for our young, healthy children.”

Justin Hart “A disease so deadly you have to get tested to know if you have it.”

J Braoddrick “They are now saying Omicron is so bad...you might not even know you have it.”

Young Americans for Liberty “It kind of feels like people have forgotten that they used to get sick before Covid-19.”

Eric Matheny “I remember when going to school board meetings and holding teachers accountable was good parenting. Now it’s terrorism.”

Tomi Lahren “All of these cowardly companies bowing to vaccine mandates and terminating their employees, just remember that many of those folks worked hard for you in the height of the pandemic when there were no vaccines available. You are despicable, and your customers are aware.”

Dec 17, 2021 Cornell University goes Alert Level Red with 900+ positive cases—99% vaccination rate!

December 13, 2021 Israel Study: Naturally Immune had a 10.5 per 100K infection rate 4-6 months after recovery, vs 69.2 per 100K rate among vaccinated.

September 7th, 2021 FDA confirms both vaxxed and unvaxxed have 99% chance of not getting Covid-19

September 7, 2021 NIH orders \$1.67M study on how COVID-19 vaccine impacts menstrual cycle.

C. Kirk “When you’re not allowed to question something at the risk of being banned, censored, or cancelled —it’s not science, it’s propaganda.

“The same people who say ‘healthcare is a basic human right,’ want to deny unvaccinated Americans healthcare. Let that sink in.”

Robert Malone MD, (Invented the mRNA Vaccine technology) “First time in history that the ineffectiveness of a medicine is being blamed on those who haven’t taken it.”

“The third dose increases immunity, so after the fourth dose you are protected. Once 80% of the population has received the fifth dose, the restrictions can be relaxed as the sixth dose stops the virus from spreading. I am calm and believe that the seventh dose will solve our problems and we have no reason to fear an eighth dose. The clinical phase of the ninth dose confirms that the antibodies remain stable after the tenth dose. The eleventh dose guarantees that no new mutations will develop, so there is no longer any reason to criticize the idea of the twelfth dose.”

Matt Couch “Nothing says “trust the science” like “we can’t tell you what’s in it and you can’t sue us if something goes wrong.”

“Censoring the thousands of Doctors that disagree with you does not make your “science” more valid.”

“There is no such thing as freedom of choice unless there is freedom to refuse.”

“When Dr. Fauci did his study on the Spanish Flu in 2007...guess what his research Discovered...that the majority of those who passed away, passed away from bacterial pneumonia caused by mask wearing... The more you know...” June 18, 2021

T Laren “The complete avoidance of natural immunity shows it’s not about science. It’s about control and money.”

“Variants variants variants. If you’re scared, put YOUR mask on and STAY HOME!”

Lars McMurtry @larsmcmurtry (account since deleted by owner NOT Twitter) “The CDC should roll out a new program: Get the shot or get shot.” The unvaccinated need to be rounded up and lined up in front of open trenches. Their choice is simple. America has had enough of their virus. We need to get back to normal life. With or without them.``

Ryan Helfenden “Reject Medical Apartheid now! Unvaccinated Americans are still Americans.”

Kambree @kamVTV “Please don’t forget to take your vitamins today. I took mine, but they won’t work unless you take yours. Science.”

“If it doesn’t prevent you catching it, and it doesn’t prevent you from spreading it, what’s a booster going to boost?”

J Broadrick “If your shot works, why do I need it? If your shot doesn’t work, why do I need it?”

Oct 27, 2021 A doctor on the FDA panel that unanimously approved the Vaccine for 5-11 year olds said :”We’re never gonna learn about how safe the vaccine is until we start giving it— that’s the way it goes.” Sounds like kids are part oof a medical experiment...

Jordan Schachtel “Two weeks to slow the spread has become Four shots to participate in Society.”

Project Veritas Pfizer scientist Nick Karl reveals that natural immunity ‘antibodies’ from Covid “pass through the umbilical cord” to child during pregnancy.

Robert O’Neill “How can you possibly take lock-downs and mask mandates seriously when the government does nothing to secure our own border?”

Why do the protected need to be protected from the unprotected by forcing the unprotected to use the protection that didn't protect the protected in the first place?"

Every drug RECALLED by the FDA... was once deemed safe and effective by the FDA. • Google or Wikipedia recalled drugs!

- diethylstilbestrol to prevent miscarriage—caused cancer in daughters of moms that took it— stopped use in 1971
- Thalidomide, pulled in 1961
- Fosamax—Osteoporosis med for post menopausal women—caused spontaneous fractures as a side affect

HEADLINE Victoria Australia: Child Lost to Covid-19, Last sentence of article: "However, it was revealed that coronavirus was not the reason for either his hospital admission or death."

Oct 2, 2021 Sen Ron Johnson "Data from England shows 63% of Delta deaths in last 7.5 months were fully vexed. Why won't the CDC sg=hare this data with the American people. What is the justification for mandates and refusal to recognize natural immunity?"

Mrs Massacre "Remember there is no money in natural immunity.

September 17, 2021M Couch "The Covid kit that India passed out to its citizens included Zinc, Doxycycline, and Ivermectin..cost \$2.65...There's a reason they don't want you getting preventative medicine. There's no money in it."

Tom Woods "Why wouldn't a negative test actually be better than proof of vaccination for entering a venue? If the vaccinated can get the virus, spread the virus, what makes a card with their vaccination status on it superior to a negative test result?"

Steve Hilton "Other countries don't force kids to wear masks - because it's not supported by science. Other countries treat recovery from Covid the same as a vaccination - because that is supported by science. Our national Covid response is driven by irrational dogma and politics, not science."

Ann Coulter "God, please send us natural immunity - better stronger and more durable than the vaccine - for the young and unvaccinated. God: I did with the Delta variant, but you put masks on."

September 13, 2021 Oxford University study finds fully vaccinated healthcare workers carry 251 times the viral load (Delta VarianT) compared to the unvaccinated - proving the vaccines make you a better carrier/transmitter.

M Couch “The FDA is telling you not to use FDA approved medications that have been prescribed billions of times and are completely safe for decades. But they are telling you that the experimental and untested jab is safe...and the majority of you are buying it. It’s unbelievable.”

Let this sink in folks...For the first time in the history of mankind, we can transmit a disease we don’t have to those who are immunized against it...read this very slowly and then get back to me.”

Catturd “ Are doctors who say they’re not treating unvaccinated patients going to quit treating overweight people with heart disease, or smokers for cancer? How about people who didn’t wear a condom for sexually transmutable diseases. I guess dentists can’t see sugar eaters either.”

John Basham “Seems to me it’s medical malpractice to recommend an injection with known serious side effects for a patient BEFORE examining the patient to make sure the injection inset contraindicated.”

Aug 3, 2021 @P8R10T_2 “Let me get this straight. Then vaccine they invented specifically for COVID-a9 is going to work for all of the variants that were unknown when the vaccine was invented? LOL”

Chad Prather August 1, 2021 “I guess all those TikTok dancing medical professionals aren’t as essential as they thought. Get the jab or lose your job. They’re coming for all of us.”

JD Rucker “As an employer, I will not hire anyone who has been vaccinated for any job of importance. I look for people with stronger discernment.”

Lucas Sharpe “The definition of a vaccine is to give you immunity and people are still getting Covid. By definition it’s not a vaccine then. Look it up in a dictionary.” June 15, 2021 (Not an online dictionary or the CDC though because they changed the definition!)

December 30, 2021 BigfootAKADarryl

“Yesterday the CDC said they shortened the quarantine guidelines because the American people will not accept 10 days, yet days ago they said it was because Omicron has a much shorter period of being contagious, but when you then have to admit Omicron is 25% of new cases not 75% then that logic to shorten the quarantine no longer holds true. And they call that SCEINCE?”
